Approval, directions or comments must be given in writing during the review to allow the Contractor to comply with the requirements of the drawings or specifications. This check is only for review of general performance with the design concept of the project and general compliance with the information given in the Contract documents. The Contractor is responsible for confirming and controlling all quantities and dimensions, selecting fabrication processes and techniques of construction, coordinating its work with that of other trades, and performing its work in a safe, timely, and satisfactory manner.
